OUR HISTORY

Ambu-Link Ambulance Service cc opened its doors on 1 May 2009. As a registered Advanced Life Support Service, we render medical care in Gauteng, Pretoria.

The service started as a fusion with Best Care Ambulance Service cc to deliver more advanced care to the patients in need of medical assistance.

We currently run with three vehicles to deliver superior service on a daily basis.

We started a volunteering system in 2011 with Best Care Ambulance Service cc to provide educational access to other medical personnel that is not part of an Emergency Medical Service. We are the only ambulance service that is in possession of such a thorough system and we use this system to create future employees that will suite any Emergency Medical Service.

In 2012 we joined forces with International Medical Service to deliver training opportunities to the public.

We are a preferred Service Provider for major companies in South Africa.

We are looking forward to the future and possible opportunities that might cross our path. We are open for any business proposals and accept all challenges heading our way.

Thank you for your interest in our company, and we hope that this portfolio will guide your decision on professional and standard health care.

SERVICES WE RENDER

24/7 Response Unit:

As a registered Advanced Life Support service, we render a 24/7 emergency care service, whereby we prove our fast response time to our patients in medical and trauma emergencies.

Transfers/Inter-Hospital Transfers:

When a patient is in need to be transferred to another medical facility, or needs to be transferred to another destination, we render transportation that can be arranged. We set a comfortable atmosphere and deliver smooth transportation.

Medical Standby (Events):

We deliver medical standby at events. Sport Events, Concerts, Musicals, Reunions – you name it, we'll cover it. At affordable costs we'll take care of all your medical concerns at such events, and you can be rest assured that all your guests/clients are in good hands.

Training:

With joined forces with International Medical Services you can do a wide range of courses. There is a lot to choose from and CPD accredited courses as well.

Best Care Volunteer System (BCVS)

As an educational setting, we provide the BCVS to create future employees to suite any Emergency Medical Service. Registered medical personnel can gain hours as requested by the HPCSA for future studies and also experience in medical and trauma rescue that will fill the leap holes in their knowledge. We make volunteering fun and a whole new experience!

We also render special services like escorts, movie shots, chaplaincy service and much more.

VEHICLE INFORMATION

Our ambulances are the famous Toyota Quantum. It serves an excellent ambulance outcome and a great working area. It suites our satisfaction when it comes to looks, speed and comfort.

Our vehicles are our pride and are in top hygienic conditions. We are proud to treat and transport any patient inside the ambulances of Ambu-Link Ambulance Service cc.

All our vehicles are up to date with their service plans and are in the best possible hygienic conditions to give our clients assurance when it comes to safety and convenience.

The layout of our vehicles inside are allows Cardio Pulmonary Resuscitation (CPR) to take place with no obstruction. This is a very important aspect that has to be taken into consideration while developing an ambulance.

Our stretchers are supplied by Ferno (When it's critical) and can accommodate up to 181 kg of weight. Strength is not an option; it is a must when it comes to lifting and moving of patients.

HOW DO WE GIVE BACK?

For the past two years we have been rendering Emergency Medical Care for our community for absolutely free. Together with the Community Policing Forums of selected areas we dedicated ourselves on rendering services for free due to the economic situations that we are experiencing in South Africa.

We are a huge sponsor for non-profit organization which is called Accident Response Unit (ARU) – they are attending accident scenes and ensuring that it is safe for the police, fire department and ambulance services.

We constantly run projects to provide to children in need. We have an annual Christmas Project where we make thousands of children smile by giving them a Christmas-like experience. Ambulances, Santa, Fairy lights and Party Packs – enough to change a child's Christmas Eve.

Projects that we have done in the past:
